#### IN CASE OF A SERIOUS EMERGENCY

PLEASE NOTE: This is a travel insurance policy and not private medical insurance. This means there is no cover for any medical expenses incurred in private medical facilities if we have confirmed that medically capable public facilities are available.

#### IF YOU NEED MEDICAL ASSISTANCE WHEN YOU ARE AWAY YOU SHOULD CALL 112 OR THE LOCAL EQUIVALENT OF 999

Customers should receive emergency medical treatment or management regardless of their ability to pay or any other consideration. A failure or refusal by a treating hospital or treating doctor to provide emergency treatment, management or care is a clear breach of an established duty of care.

#### YOU SHOULD THEN CALL US ON +44 (0) 203 829 3848

Whilst the actual medical care you receive is in the hands of the local doctors treating you, we can obtain the medical information we need from them to establish what is wrong, as well as their treatment and discharge plans. We can support you in the event you are admitted to a facility that may not be suitable for your clinical needs or where there are concerns over practice.

We will then advise on, and can put in place, suitable repatriation plans to get you home as soon as it is medically safe to do so. We will liaise with the treating doctor to get a fit to fly certificate when needed, and with aero-medical experts who will advise on both the timing and method of repatriation that is best suited to your individual needs and your recovery.

#### It is important that you are aware of the following:

Medical Treatment	Repatriation (bringing you home)
<ul> <li>There is no cover for: <ul> <li>routine, non-emergency or elective treatment</li> <li>or treatment that can wait until you return home.</li> </ul> </li> <li>Our doctors are not treating you; they are not responsible or in control of the clinical care you are receiving in a medical facility.</li> <li>In some instances, you may need to be moved from one local facility to another larger/more specialised facility, for treatment.</li> <li>Having travel insurance does not ensure a 'fast track' medical service from the treating facility, much like the NHS – emergency service rooms can be busy at certain times and so it is possible you may have to wait as you would in your local NHS hospital unless you require critical care.</li> <li>Once you are discharged from hospital this does not always mean you are fit to fly home – For example, if you were in the UK and suffered the same injury/illness, then you would not consider flying out on holiday so soon after surgery/treatment/incident.</li> <li>Some medical facilities will raise charges that are far in excess of customary and reasonable; we will deal with such bills directly and there is no need for you to pay them. You simply need to pass any correspondence about such bills to us to ensure we can provide full financial protection.</li> </ul>	<ul> <li>Coming home straight away is not always an option even if you are considered 'fit to fly' by the treating doctor.</li> <li>We have a medical team with experience in aviation medicine who will advise on both the timing and method of repatriation which is best suited to your individual needs and your recovery.</li> <li>Most airlines require specific criteria to be met in order to accept a 'medical passenger'.</li> <li>Things change – if your health, stability or vitals change – then so do the plans.</li> <li>Availability of air ambulances, stretchers and appropriate medical escorts can be limited in specific areas and at different times of the year.</li> <li>Air Ambulances are 'flying intensive care units' and are only used to transport critical patients to a hospital in the UK, if treatment is not possible where they are.</li> </ul>

#### **OUT-PATIENT TREATMENT OF MINOR INJURY OR ILLNESS**

PAGE 3

PLEASE NOTE: This is a travel insurance policy and not private medical insurance. This means there is no cover for any medical expenses incurred in private medical facilities if we have confirmed that medically capable public facilities are available.

#### FOR A NON-URGENT MEDICAL SITUATION

That is something you would normally see your GP or minor injuries unit for, so you don't need to attend hospital but you do need some medication to treat a non-emergency situation. Like what? Poorly child with tonsillitis? Infected cut on your foot? We have teamed up with **Medical Solutions UK Ltd**, who offer UK Registered Doctors who give medical support and assessment over the phone and are able to prescribe in many counties across the globe. This means you can quickly access support with minor ailments without disrupting your trip too much. You can access this facility free of charge by calling

+44 161 468 3793

#### YOU CAN ALSO CALL 112 OR THE LOCAL EQUIVALENT OF 999

Customer should receive emergency medical treatment or management regardless of their ability to pay or any other consideration, a failure or refusal by a treating hospital or treating doctor to provide emergency treatment, management or care is a clear breach of an established duty of care.

#### **OPTIMAL CARE**

In our experience the access to the best doctors, diagnostics and optimal care in many areas of the world (particularly in Europe but also across many destinations worldwide) are limited to state facilities. They don't always look as nice, but we have experience of good clinical outcomes within a regulated environment without the risk of a patients' health being compromised over commercial interest, immoral and dangerous practices such as extortion, detainment and withdrawal of treatment you are unlikely to find occurring in state facilities. If you would like to know more about our approach to best medical care overseas and repatriation planning, please visit our website <a href="https://philosophies.tifgroup.co.uk/">https://philosophies.tifgroup.co.uk/</a>

#### IN THE EVENT THAT YOU DO RECEIVE OUT-PATIENT TREATMENT WHEN YOU ARE TRAVELLING

In European Union Countries – if you present yourself at a public facility you should show your EHIC.

In Australia – you should enrol for Medicare, and have it accepted.

Using these agreements in public facilities will mean that medical treatment will be free, or at a reduced cost, and your standard policy excess will be waived from any claim you may make. If you are unable to use the EHIC, you will have to pay the medical facility and submit a claim when you get home, the policy excess will then be applied.

In Turkey, Cyprus, Egypt and Bulgaria – we utilise the services of Global Excel who can arrange for the bill to be paid directly. You simply fill in a Global Excel form in the medical facility to confirm the nature of the treatment received and pay your policy excess to the facility. They will then send the remaining bill directly to Global Excel for payment. More information can be found here <u>www.globalexcel.com</u>

Everywhere else in the World – if there is not suitable public facility that will treat you free of charge, you can pay the medical facility and retain all receipts so that you can make a claim when you get home.

PLEASE NOTE: If the costs are likely to exceed £500 or you are admitted to hospital, you should call us on +44 (0) 203 829 3848.

If your existing medical condition would require an additional premium to be covered and you choose not to declare it, we reserve the right to decline a claim relating to this condition, unless otherwise agreed by us in writing. Full confirmation of our terms and conditions will be sent out to your address after your call. Any additional medical conditions not declared to us will not be covered.

This means there is no cover for any medical expenses incurred in private medical facilities if we have confirmed that medically capable public facilities are available. Whilst the actual medical care you receive is in the hands of the local doctors treating you, we can obtain the medical information we need from them to establish what is wrong, as well as their treatment and discharge plans. We can support you in the event you are admitted to a facility that may not be suitable for your clinical needs or where there are concerns over practice. We will then advise on, and can put in place, suitable repatriation plans to get you home as soon as it is medically safe to do so. We will liaise with the treating doctor to get a fit to fly certificate when needed, and with aero-medical experts who will advise on both the timing and method of repatriation that is best suited to your individual needs of your recovery. No cover is provided under this section for:

#### ADDITIONAL SPORTS AND HAZARDOUS ACTIVITIES:

Unlike other policies we cover many sports and activities as standard; no additional premium is required for activities listed in Activity Pack 1. We have categorised the activities that are not covered as standard into seven further bands. If you do not see your chosen activity, do not worry, we may cover it, but you must contact us so we can discuss the activity and what, if any, additional premium is necessary. (*All of the activities are covered on a non-professional and non-competitive basis, unless otherwise stated*). Any claims which arise whilst undertaking any of these activities for any purpose other than leisure (examples of non-leisure purposes include professional / semi-professional / paid / sponsored racing, timed events – unless otherwise specified, professional, display events, photo shoots, etc...) will not be covered under this policy. Safety guidelines provided from a professional event company or organiser must be followed. Failure to do so will invalidate a claim. If you are unsure please do not hesitate to contact us on 0330 8800 0389 and we can discuss your individual requirements. We consider 'professional or competitive' to be activities/sports where you are either paid for participating in, receive any element of sponsorship, fees or prize money in excess of £200. *Please note those activities and underlined do not have Personal Liability cover or Accidental Death and Disability cover.*
